

# THE GAZETTE.

MARTINSBURG, SEPTEMBER 6, 1832.

**The Cholera.**—The report of the number of cases in Baltimore, on Monday last, was 35, of which 20 were whites, and 15 blacks. In Philadelphia on Friday last, there were 31 cases. In Norfolk, six deaths were reported for the twenty four hours ending on Friday morning last. Two cases were reported at Providence, Rhode Island, on Sunday last, one of which proved fatal. It still continues at Montreal. At New York, it has abated considerably. As regards our own town. We see it stated in the Winchester Virginian of yesterday, that the Cholera is in this place—this is without foundation. Our town is as healthy as it ever was. We know of but two cases of sickness of any description in the place, one of them in the editor's own family—neither of which is cholera. Whoever informed the editor of the Virginian of the existence of cholera in Martinsburg, imposed upon him. We think it advisable in printers not to publish all the flying reports they may hear. Should that dreadful disease appear among us, we will promptly let the public know it—we have no disposition to conceal any fact that may occur.

**The Canal.**—The contracts for that portion of the Chesapeake and Ohio Canal between the great dam at the mouth of the Opecon and that near the mouth of the Little Conococheague, (seven miles above this place) have been given out. We understand that Mr. Burns, an experienced contractor on order portions of the Canal, has obtained from the Company the contracts for the Aqueduct over the Conococheague at this place, for the upper dam across the river, and for the intervening sections of the Canal. It is the purpose of the contractors to commence operations as early as practicable. Preparations are already on foot for constructing shanties at different points along the line for the accommodation of laborers.—*Williams Sp. Ban.*

**The travelling Cabinet.**—One of the strongest objections urged against the last administration was, the neglect of public business for the purpose, as was charged, of operating on the elections. What do we now see? The President himself travelling all the way to Nashville, as the electioneering agent of John H. Eaton, whom he desires to put in to the Senate, over the head of Mr. Grundy, not that he expects more earnest or efficient support from the favorite, but Belona must be gratified. No one will pity Mr. Grundy, he deserves his fate.

But this is not all. Where are the other heads of departments? Who now is the nominal head of the Government?—U. S. T. L. **Post Office Contracts.**—The "powers that be," rely on the post office contracts, as one of the most efficient means of operating on public sentiment. A few individuals, who, by combining their influence, have monopolized most of the valuable contracts, are required to contribute part of the "spoils" in the support of presses, and in other contributions. This monopoly should be broken down. To do it, it is only necessary for bidders to attend to their own interest. Let each bidder for any contracts, for which proposals have been issued, be prepared with good security, and then insist upon his rights and the monopoly will be broken up.—*Ibid.*

**Lewisburg, (Va.) Aug. 24.** The Hon. Henry Clay left this place with his family, on Friday morning last, for his residence in Kentucky.

He came here the day preceding, accompanied by his friends Gov. Barbour and Mr. Starnard, together with several other gentlemen from the White Sulphur Springs. During his stay he was called on by many of the citizens of our town, who were received by him with his usual courtesy and kindness. Hon. Mr. Barry, Post Master General, is at present on a visit to the watering places.

There were 59 deaths at New Orleans, during the week ending on the 11th instant inclusive. This, considering the thinness of the population at this season of the year, is rather a large bill of mortality for the week. On the 11th, we observe, there were fourteen deaths. The papers, however, make no mention of the yellow fever or any other peculiarly fatal disease.

**Belle Air, Md. Aug. 22d, 1832.** We regret to learn that Patterson's flour mill and nail factory, on the Great Gunpowder Falls, Baltimore county; as also the new bridge over that stream, were destroyed by fire on Monday night last. The fire originated in the drying room of the mill, and was not discovered till too late to save the property. Two men sleeping in the mill were compelled to jump from a window in the second story, and were much injured. The loss is very great, not only to the proprietor, but to the neighborhood. It is said the property was insured to the amount of \$15,000, which will not cover the loss.—*Indianapolis Citizen.*

From the New Orleans Argus.

**A CARD.** To the Public.—In looking over the Richmond Whig, National Intelligencer, Globe, and United States Telegraph, I have seen the different reports and statements in relation to the late contest or dispute in the Senate chamber of the United States, between the Hon. Henry Clay of Kentucky, and Hon. Thos. H. Benton of Missouri; as to what Mr. Benton said in Missouri, previous to the election of Gen. Andrew Jackson as president of the U. States.

Having resided in the states of Missouri and Kentucky, for a number of years previous to the election, and being acquainted with both the above named gentlemen for twenty five or twenty six years, I conceive it to be a duty incumbent on me, thus to give publicity to what came under my immediate notice, in relation to the above matter.

Col. Thomas H. Benton stated in my presence and that of several other gentlemen in the city of St. Louis, Mo. in the latter part of the summer or fall of 1822, that if Gen. A. Jackson was elected President of the U. States, every man opposed to him, and wishing to support his own dignity, would be obliged to arm himself, and guard his house with BULL-DOGS and BLOOD HOUNDS.

HENRY JONES.

New Orleans, Aug. 10th, 1832. On Tuesday the 28th ult. Gen. Jackson, (accompanied by Maj. Eaton and others,) made his entrance into Nashville, amidst the roar of cannon, & the shouts of the multitude.

## GARLEGANT'S

## Balsam of Health.

THE art of preparing this valuable BAL-  
SAM OF HEALTH has been in possession of the proprietor, JOHN S. MILLER, Fredericktown, Md. for some time. It is now extensively and advantageously known in many parts of the United States, for the cure of Dyspepsia, and many other diseases that proceed from a morbid condition of the stomach. The Proprietor has been cured of the most obstinate case of Dyspepsia, that ever a mortal was afflicted with. It is also highly recommended in Cholera, Nervousness, Tremors, Looseness of spirits, and Palpitation of the heart; and is, also, a sovereign remedy for worms. It is neatly put up in square half pint bottles, accompanied with extensive directions for its use, which can be had at all times of the Proprietor, at his Drug and Medicine Store, opposite the Market House, at \$1 per bottle; and by the quantity, at a very liberal discount. It can also be had of his Agents, in Pennsylvania, Maryland, Virginia and Ohio, by wholesale and retail.

The following are among many certificates of cures performed by this medicine:

Frederick city Md. Feb. 1, 1831.  
Dear Sir:—Last fall, on hearing of Garlegant's Balsam of Health, prepared by you, I determined to get a bottle, for the purpose of trying what effect it would have in relieving me of a most severe and painful case of Dyspepsia, with which I was afflicted, and for which I tried all other prescribed remedies in vain. I accordingly used one bottle, and experienced immediate and perceptible relief. I found it also an excellent remedy for the Bilious Cholera, and think it superior to any thing I ever used.

ALEXANDER SINLEY.

To John S. Miller.  
Since I gave my certificate above, I used another bottle of Garlegant's Balsam of Health, which cured me perfectly of the Dyspepsia, which I had been troubled with for many years.

ALEX. R. SINLEY.

Dear Sir:—I lately used your Balsam of Health: For two years I had a constant and fixed pain in my side, and frequently subject to costiveness accompanied with fever, more or less. I accordingly bought a bottle of your Balsam, of your agent in Hagerstown, and found it relieved me very much; and I procured the 2d bottle, which cured me perfectly; and since then I enjoy perfect health again; and I do recommend the said Balsam to those that are afflicted in the same way.

Respectfully yours,

JAMES FLAMING.

## The Martinsburg Academy.

THE next session of this School will commence on Monday the 9th of September next. Mr. WHANN, the late preceptor, will continue to preside over the School. The Trustees beg leave to call the attention of the citizens of Berkeley and the neighboring counties to this Institution. It has been some time since they could venture to recommend it, heartily, to the patronage of the public; they feel warranted in doing so at this time.

Mr. WHANN has for two years taught at the Academy under the careful observation of the Board, and they have every reason to congratulate themselves in their selection of so worthy and competent a teacher. His school has been distinguished for the quiet and unobtrusive progress of his boys. There have been several of the scholars turned out for College, who have entered with great credit, and the deportment and gentlemanly discipline of Mr. Whann, has had a marked effect upon the manners of his pupils.

The boarding in Martinsburg is remarkably cheap and the town healthy, and if any further inducement be wanting to parents, it may be found in the fact, that there is perhaps no town in Virginia, in which, less encitements to dissipation can be found than in this village.

The studies of the Academy are the Greek and Latin languages—the elements of Mathematics, including Geometry, Algebra, Trigonometry, Surveying, &c. Scholars are taken in all the usual branches of English education, and it is believed, that with diligence, a young man may readily prepare himself, under Mr. Whann, to enter the Junior Class in any of the Colleges.

The terms of the Session are:  
For Classical Scholars \$12 50  
For Scholars in the English branches \$10

FORTUNE'S BANNER is still proudly waving over the PALACE OF FORTUNE!

We cannot find language to express our own wonder and astonishment at the continuation of Brilliant, unprecedented, and unrivalled luck, which has attended our Office ever since its first establishment. Not a Lottery is drawn, in which we sell Tickets, that we do not sell some of the Capitals.

We have no branch. Our lucky establishment is in Wheeling, Va.; and the genuine prize tickets can only be had from this establishment. Those purchased from any other office in the U. States are genuine enough, but of an inferior quality. We are sorry that our brother vendors cannot compete with us, for we are fond of company in any thing like competition. If we have more than our share of Luck, they must not complain; it is the will of the Goddess of Fortune. Let every man give us a fair trial, and he will be convinced that it is to his interest to purchase his tickets from the Managers' Office, Wheeling, Virginia.

We issued our "Bulletin" a few days back, informing the public of our having sold 10 Capital Prizes, from the 1st to the 12th July. NOW BEHOLD the astonishing but stubborn fact! July 29, 1832
